

Service Provider Vetting Report: Ezzi Property Group LLC

Case/SR: KS69888

Prepared: August 10, 2026

Skill: service-provider-vetting-analyst (Wiglaf)

Primary jurisdiction: Massachusetts (also operates in New Hampshire per website)

Step 1 – About the Company

Ezzi Property Group LLC is a Massachusetts domestic LLC that invests in, renovates, and manages multifamily apartment assets in Massachusetts and New Hampshire. Public materials describe value-add multifamily ownership/operations rather than a licensed specialty trade contractor. Commercial multifamily renovation and property operations are in scope; third-party trade contracting under the Ezzi / Captain Contracting names is claimed but not supported by company-level trade licenses. States registered: Massachusetts (domestic LLC confirmed). New Hampshire foreign qualification: Not Found. Licenses: Marc G Abou-Ezzi holds Construction Supervisor **CS-116718** (OPSI, Active, expires 3/14/2028); Real Estate Salesperson **9539814-RE-S** (MADOL, Expired); HIC **204159** reported Active by BuildZoom only (official Hub not reconfirmed). No company plumbing, gas fitting, sheet metal, electrical business, or refrigeration license found for Ezzi Property Group LLC or Captain Contracting LLC. Subcontracting: Yes — owner has stated use of subcontractors and ad hoc labor; GC arm Captain Contracting LLC formed 2025; Oct 2024 packet included individual journeyman plumber/electrician cards not issued to the company. Service area: Massachusetts and New Hampshire (website). Employee count: LinkedIn lists about **5** company-page employees; website claims **30+** “people on the ground” (source conflict — treat website claim as unverified marketing). Past license suspensions/complaints: Not Found on OPSI/MADOL/ePlace records reviewed; BBB complaint detail Not Found due to portal blocking.

Step 3 – Address Verification

126A Pleasant Valley St Ste 4, Methuen, MA 01844

- **Classification:** Shared professional office / commercial suite (not a standalone storefront or warehouse).
- **Google Maps:** [126A Pleasant Valley St Ste 4, Methuen, MA](#)
- **Evidence:** Maps resolves to a “professional building” at 126A Pleasant Valley St with multiple dental / health-and-beauty tenants in the directory (e.g., Merrimack Dental Associates, Pleasant Dental Center). Suite 4 is consistent with a multi-tenant professional office. Same address appears on MA SOS for Ezzi Property Group LLC and Captain Contracting LLC, on Marc Abou-Ezzi's CSL record, and on the BBB profile.
- **Street View detail:** Building-level commercial professional occupancy confirmed via Maps directory/context; suite-level Street View interior Not Found.

Other addresses

- LinkedIn headquarters listed as Boston, MA — no specific street address verified → **Not Found** as a separate verified office.
- Website phone (603) 555-7890 appears to be a placeholder number, not a verified NH office address → **Not Found**.
- BBB / Traded phone (978) 807-3427 aligns with Methuen-area contact previously associated with Marc Abou-Ezzi.

Step 4 – Online Reviews

Source	Finding
BBB	Profile exists for Ezzi Property Group LLC (Methuen). Not BBB Accredited . Rating reported as A+ in public snippets. Business start/incorporated date on BBB aligns with SOS (8/17/2021). Complaint count / themes: Not Found (full complaint panel blocked by bot protection this run). Category listed as Real Estate Agents.
Google	Independent Google Business rating/review count for “Ezzi Property Group” as a contractor: Not Found (search automatability blocked). Website self-displays “Rated 4.8 stars” resident testimonials — marketing, not an independent Google scrape.
Yelp	Dedicated Yelp business page for Ezzi Property Group / Captain Contracting: Not Found .
Forums / trade sites	BuildZoom profile for Marc Abou Ezzi (BZ Score 90 as of 8/1/2026) lists CSL/HIC; no consumer review body extracted. No verified pattern of subcontractor non-payment, licensing discipline, or unresolved BBB complaints found in open sources.

Flags: No confirmed pattern of non-payment, licensing discipline, or unresolved BBB complaints. Review evidence is thin for a contracting SP — treat as low signal, not as a clean bill of health.

Step 5 – Digital Footprint

Item	Finding
Website	https://www.ezzipropertygroup.com/ — multifamily rentals/investment positioning; claims 300+ units across MA & NH, 10+ years experience, 30+ people on the ground; contact email info@ezziproperty.com.
LinkedIn company	https://www.linkedin.com/company/ezzi-property-group — Real Estate / privately held; ~5 employees on LinkedIn; HQ shown as Boston; about text focuses on value-add multifamily around Boston.
Become a Vendor / Partner pages	Not Found on website review.
Subcontractor / GC signals	Owner public statements describe subcontractors and a vertically integrated GC arm (Captain Contracting LLC); LinkedIn post (Dec 2025) markets Captain Contracting to third-party multifamily clients.
Staffing insights	LinkedIn roles skew Real Estate / Management; website “30+ on the ground” conflicts with LinkedIn headcount of ~5 — use Not Found for reliable field-crew size.
Social	Instagram @ezzipropertygroup referenced in press; Facebook/TikTok/Twitter links present on site.

Step 6 – Final Assessment

Vendor grade: D

Ezzi Property Group LLC is a real operating multifamily investor/manager with an active MA LLC and an owner-held Active CSL, but it is **not verified as a licensed HVAC/mechanical, plumbing, gas, sheet metal, or electrical contracting company**. Captain Contracting LLC exists on SOS (formed 2025) yet has no matching trade/business licenses on MADOL/ePlace/OPSI. For Vixxo trade work—especially HVAC/mechanical—the license posture does not support self-perform contracting.

Confidence grade: B

Formation, agent, address, CSL, plumber, and electrician credentials were verified on primary government portals. Gaps remain on official HIC Hub confirmation, NH foreign qualification, independent Google/Yelp review counts, and BBB complaint detail (portal blocking). Those gaps are documented as Not Found rather than assumed clean.

Rationale summary

Commercial multifamily capability exists; subcontracting is acknowledged but not transparent at the license/permit level. License status for the *company* on regulated trades is the decisive negative for SP trade use. Reviews do not show a documented complaint storm, but also do not demonstrate a strong independent contractor reputation.
