5. Recommended Ask-Backs

1. If self-performing HVAC: Refrigeration Contractor (OPSI) and/or Sheet Metal Master/business (MADOL).
2. Written proof Keddy / Moran / Dossas work under a Master / business licensee who will pull permits for the site.
3. Plumbing LLC / Master or Gas Fitter Master if company is contracting those trades (Journeyman alone is insufficient for firm contracting).
4. Electrical Business / Master Electrician license if contracting electrical work as a company.
5. Confirm CSL cubic-footage limit vs building size.
6. Live HIC confirmation for registration 204159 on Contractor Hub if residential HIC scope applies.

Disclaimer: Public portal data as of August 10, 2026. MADOL “View License” detail modal threw a page error (sheetjs) during this run, so expiration day for Keddy’s Active plumber license was not captured beyond status=Active. Not a legal opinion. Re-verify before authorizing work.
