

Vixxo COI - Endorsement Equivalents Reference

Authoritative companion to `vixxo-requirements.md`. Maps every provision in the Sample COI 2026 Description of Operations to the ISO endorsements named on the certificate and commonly accepted equivalent forms.

Source: Vixxo Sample COI 2026 (Description of Operations block), still attached to Addendum B.

Addendum B adds dollar minima, Vertical Transportation GL upgrades, Professional Liability, Pollution Liability, and A.M. Best A IX. Those are not endorsement-form questions - see `addendum-b-scope-coverages.md`. This file remains the AI / PNC / WOS / NOC map. Addendum B also says *all* required insurance is primary and shall contain a waiver of subrogation; the Sample COI still only prints GL primary and WOS on GL / Auto / WC/EL. Keep requiring the sample trio on every COI; extend primary and WOS asks to E&O / Pollution when those lines apply.

Description of Operations - provisions to satisfy

The Sample COI Description of Operations requires all of the following:

1. Additional Insured - General Liability (ongoing and completed operations), per written agreement
2. Additional Insured - Automobile Liability, per written agreement
3. Primary insurance - GL is primary to any other available insurance
4. Waiver of Subrogation - GL, Auto, and WC/Employers Liability
5. 30 days' Notice of Cancellation

The sample explicitly names three ISO forms; the other provisions are contractual language that should be backed by policy endorsements where possible.

1. Additional Insured - General Liability (Ongoing Operations)

Named on Sample COI: `CG 20 10` Edition `04/13` (or equivalent)

Form	Edition(s)	Notes
CG 20 10	**04/13** (preferred)	Additional Insured - Owners, Lessees or Contractors - Scheduled Person or Organization (ongoing ops)
CG 20 10	07/04, 10/01, 11/85	Older scheduled ongoing-ops editions; commonly accepted as equivalent
CG 20 33	04/13 and prior	Blanket/automatic AI when required in a written contract (ongoing + completed)
CG 20 38	04/13 and prior	Automatic AI for ongoing operations when required in agreement
CG 20 26	Various	Designated Person or Organization - **not a full substitute** for CG 20 10 + CG 20 37 in vendor/subcontractor scenarios
CG 20 42 / CG 20 43	04/13 era	Designated-operations variants (niche use)

Vixxo rule: CG 20 10 alone is not sufficient. Completed operations coverage (CG 20 37 or equivalent) is also required.

2. Additional Insured - General Liability (Completed Operations)

Named on Sample COI: `CG 20 37` Edition `04/13` (or equivalent)

Edition(s)

		Notes
CG 20 37	**04/13** (preferred)	Additional Insured - Owners, Lessees or Contractors - Completed Operations
CG 20 37	07/04, 10/01	Older completed-ops editions; commonly accepted
CG 20 33	04/13 and prior	Blanket AI covering both ongoing and completed ops when required by contract
CG 20 39	04/13 era	Automatic completed-ops AI when required in written agreement (with privity)
CG 20 40	04/13 era	Automatic completed-ops AI (no-privity / upstream scenarios)

3. Additional Insured - Automobile Liability

Named on Sample COI: `CA 20 48` Edition `10/13` (or equivalent)

Form	Edition(s)	Notes
CA 20 48	**10/13** (preferred)	Designated Insured / Additional Insured for Business Auto when required by written contract
CA 20 48	10/01 and prior	Older editions; commonly accepted
Carrier proprietary equivalents	-	Acceptable if functionally equivalent; Vixxo has accepted: **State Farm CMP-4786**, **Auto-Owners 58503** (Designated Insured)

Non-ISO carriers often use proprietary forms instead of CA 20 48. Accept when they grant designated/additional insured status on auto liability per written contract.

4. Primary (and Non-Contributory) - General Liability

Sample COI language: *The insurance provided by the General Liability policy shall be primary to any other insurance coverage available.*

Form	Edition(s)	Notes
CG 20 01	**04/13** (preferred)	Primary and Noncontributory - Other Insurance Condition
CG 20 01	07/04, 01/96	Older primary/non-contributory editions
Manuscript / policy language	-	Custom endorsement with equivalent primary-and-non-contributory language

Note: Business Auto is typically primary by policy form without a separate endorsement. Vixxo still requires the primary language on the COI for GL.

5. Waiver of Subrogation - General Liability

Sample COI language: *Waiver of Subrogation applies to Additional Insured with respect to the General Liability ? policies as required by written agreement.*

Form	Edition(s)	Notes
CG 24 04	**04/13** (preferred)	Waiver of Transfer of Rights of Recovery Against Others to Us
CG 24 04	07/04, 05/09	Older waiver editions
CG 24 53	04/13 era	Automatic waiver when required by written contract (functional equivalent of CG 24 04)
Blanket WOS language in policy	-	Acceptable only if it clearly applies to parties required by written contract

6. Waiver of Subrogation - Automobile Liability

Form	Edition(s)	Notes
CA 04 44	**10/13** (preferred)	Waiver of Transfer of Rights of Recovery Against Others to Us (Auto)
CA 04 44	10/01 and prior	Older auto waiver editions
Carrier proprietary auto WOS forms	-	Acceptable if equivalent in scope

7. Waiver of Subrogation - Workers' Compensation / Employers' Liability

Form	Edition(s)	Notes
WC 00 03 13	Various (04/84+)	Waiver of Our Right to Recover from Others Endorsement

State-specific WC waiver forms	Varies	Required in some monopolistic or state WC markets
8. 30 Days' Notice of Cancellation		
Sample COI language: "30 days' Notice of Cancellation applies."		
Form	Edition(s)	Notes
IL 01 03	11/85+	Notice of Cancellation to Designated Additional Insured or Mortgagee (interline - applies across policy types)
CG 02 24	10/93+	Earlier Notice of Cancellation Provided By Us (CGL; schedule specifies number of days, e.g. 30)
State-specific NOC endorsements	Varies	Many carriers use state-modified cancellation notice forms
Manuscript NOC endorsement	-	Custom 30-day notice to certificate holder / designated party
Important: Language in the COI Description of Operations alone does not create enforceable notice rights. The underlying policy should carry a notice-of-cancellation endorsement naming Vixxo (or the certificate holder). Vixxo accepts the COI language as a compliance checkpoint; best practice is to also collect the actual NOC endorsement.		
Umbrella / Excess (when underlying GL or Auto limits are supplemented)		
Not named on the Sample COI but often accompanies the same risk-transfer package:		
Provision		Umbrella/Excess equivalent
Additional Insured		**CU 20 27**
Waiver of Subrogation		**CU 24 04**
Practical acceptance notes (Vixxo COI review)		
* All three named AI forms are mandatory: CG 20 10 and CG 20 37 and CA 20 48 (or accepted equivalents). CG 20 10 without CG 20 37 is a common deficiency. * "Or equivalent" means same coverage scope, not just the words "additional insured" on the certificate. * Waiver of subrogation must be confirmed on each line separately (GL, Auto, WC/EL). A generic "WOS applies" without specifying lines ? flag as Needs clarification. * Carrier proprietary forms are acceptable when they match the ISO form's intent. Examples already seen in Vixxo intake: State Farm CMP-4786 (? CA 20 48), Auto-Owners 58503 (Designated Insured). * The full Vixxo Additional Insured party list (Vixxo, subsidiaries, customers, site owners/operators/mortgagees as "Insurance Beneficiaries") must appear in the Description of Operations or on the endorsements. A bare "Vixxo Corporation is Additional Insured" is not sufficient.
